Putting pay in the open (Meyer, Harvey), Apr 5-90
Sounding off on health care (Grayson), Feb 20-30
The subtext is reform (Greene), Oct 5-36
What a little arm-twisting can do (Greene), May 5-39

ALBANY MEDICAL CENTER SAVED OVER $1 MILLION A YEAR IN ENERGY COSTS.

LIKE TO FIND OUT HOW?

HINT: TRY A FREE ENERGY SURVEY.

The free Energy Survey for companies or institutions with a million square feet of space or energy bills exceeding $1,000,000 a year is the opening step in a process which can save you hundreds of thousands of dollars.

Believe it or not, it's that simple.

We have pioneered a method of financing energy-saving capital improvements out of existing budgets. You save year after year, without putting out a penny. It's very nearly too good to be true.

But it is. Call for details.

it isn't just a game, it's a science

Health care business has become an exacting science. Patient outcomes, performance improvement and OASIS are all grounded in quantitative analysis. Home care must collect, track and trend data well before the Prospective Payment System (PPS) is implemented.

We have the tools, technology and expertise to prepare your business for PPS. Our management solutions help you maintain a strong bottom line without compromising patient care. Call us. We know the science of home health care.
